Family Service Toronto (FST) helps people face a wide variety of life challenges. For over 100 years, we have worked with individuals and families destabilized by precarious mental health and/or socioeconomic circumstances, to achieve greater resilience and stability in more just and supportive communities. We achieve this through our direct service work of intervention and prevention which includes counselling, peer support and education; knowledge building; and system-level work including social action, advocacy, community building and working with partners to strengthen the sector.

Social Action and Community Building's work is focused on driving system-level change for more just and supportive communities at the local, provincial and national levels. Poverty, marginalization and discrimination are at the root of the inequality that affects our communities. We work with diverse partners at the neighbourhood, city-wide, provincial and federal levels in coalitions and networks. We develop effective policy solutions, engage residents in leadership opportunities and provide public education to community residents, advocates, service providers and the general public. The successful candidate will work to support the activities of the unit and will report to the Director of Social Action and Community Building at FST. Supervision will include mentoring and career development support.
