

Art of Belonging: Intergenerational 2SLGBTQIA+ Art Therapy

An 8-week intergenerational art therapy group for 2SLGBTQIA+ individuals.

Through creative expression and shared storytelling, participants will explore themes of identity, resilience, and belonging.

The group is designed to foster meaningful connections, strengthen community ties, and promote healing through the arts. By bringing together different generations within the 2SLGBTQIA+ community, we aim to honour diverse histories, encourage mutual learning, and build lasting relationships.

No previous art experience is required — just an openness to connect, create, and grow in community.
